OBJECTIVE

An enthusiastic computer engineer deeply fascinated by the programming domain. Driven by a strong desire to delve into the latest technologies, I continually pursue fresh challenges and strive to enhance my expertise and understanding in these domains.

ONLINE TRAINING COURSES

Object Oriented Programming in Java Specialization - Coursera

39 hours of training, aims to aspire software developers with some programming experience in at least one other programming language (e.g., Python, C, Javascript, etc.) who want to be able to solve more complex problems through objected-oriented design with Java.

EXPERIENCE

July 2022 -
August
2022

System Administrator

ROC.PH Digital Marketing Services

Defined website specifications, overseeing employee access, information, and security.

Ensures robust safeguards against intrusion and maintains system reliability at its best.

EDUCATION
